Leeds CITY COUNCIL	**Highways & Transportation** **Bridges Section**

Walls and fences

If a wall that supports a road or footway is in danger of collapsing the council has a responsibility in the first instance to ensure it is made safe (even though the wall may not be council owned).

If a road or footway is in danger of breaking up because of a wall collapsing then the council will be responsible for dealing with the problem. Please report the problem to the contact centre on 0113 2224407. The contact centre is open Monday to Friday 8:00 am to 6:00 pm.

Homeowners or occupiers are responsible for the maintenance of boundary walls or fences on private land that are next to the street. If anyone is concerned for the safety of the public because of a dangerous wall they should contact Building Control by either:

Email: planning@leeds.gov.uk or telephone 0113 247 8000 (minicom 0113 247 4305) or you can write to: Building Control section, 2 Rossington Street, Leeds, LS2 8HD.
