

# Pest Control Service

Leeds City Council provides a full and professional pest control service. The service ranges from advise on pest prevention to the direct control of rodent, insect and bird pests.

We provide a full compliment of treatments for domestic and commercial properties whereby a fully trained and qualified technician will visit the property to begin a specific treatment regime to eradicate the problem.

We can either offer one off treatment as required or if you have a number of properties we can create a service level agreement for a reactive service which will not on keep your premises pest free, but will also save your company money.

Prices listed below are for domestic properties and are a one off cost to **eradication** (which includes all visits required). Revisits required within a month of the last visit are free and included in the charge.

Type of Treatment	Exc Vat	Vat	Inc Vat	Comments
<b>Rats Inside</b>	£63.83	£12.77	£76.60	
<b>Rats Outside</b>	£63.83	£12.77	£76.60	<i>Service only supplied to Council and Housing Association properties.</i>
